1945 Red Cross War Fund Drive To Start March 1

Arlington will participate in the 1945 Red Cross War Fund for Greater Boston which gets under way March 1, when 22 chapters in the Metropolitan area will unite in an appeal to "Keep Your Red Cross At His Side."

In announcing the amalgamation, General Chairman Phillips Ketchum said that it would comprise the country's first great combined Red Cross undertaking, the first time in history that so great a number of chapters would be banded together in partnership.

Noted Dutchman to Speak Here

Jacob Van Berkel, distinguished Dutchman, will give a lecture at the First Congregational Parish (Unitarian Church), this evening at 8. Sponsored by the Social Alliance and the Laymen's League, this lecture is open to the public. There will be no admission charge. Mr. Berkel will speak on "Four Years of Experience in Underground Activities and Concentration Camps of Hitler's Fortress Europe." During the past four years, he has worked in occupied Europe, participating in underground activities. He lived for a while in Berlin where he was present during 48 air attacks. He was also in Warsaw and Prague. The Social Alliance will serve dessert and coffee at 7.45.

drive for contributions lasting through March 26, Ketchum said, with the point being stressed that never has the need been more urgent for funds to continue and increase the innumerable services by which Red Cross saves lives and otherwise looks out for the welfare of our fighting men. Germany's counter-offensive, he explained, took and is taking a high toll in wounded men and in men taken prisoner. Also, stepped-up actions in the Pacific are having a similar effect. Hence the greater need for Red Cross services.

The 22 participating chapters in this drive represent 39 communities in the Greater Boston area. Though merged for the war fund campaign, Ketchum explained, each chapter will retain its identity, and each will have its own war fund chairman, treasurer and a complete campaign organization. Also, he said, each chapter will have its own special gifts committee, business committees and house-to-house or residential committee.

Chairman of the allied chapters department is Kenneth H. Erskine, who points out that merging of the chapters is consistent with the streamlining policy being adopted in all branches of the war effort to promote efficiency and economy. (Please turn to page Eight)

Fund Provides Care For Local Cases

Dedicated to the March of Dimes for the benefit of the National Foundation for Infantile Paralysis, tonight's dance of the Arlington Youth Association at the Robbins Town Hall, will climax this week's activities in Arlington in the interest of this worthy cause.

William J. Sinclair of 180 Jason st., vice chairman of the Arlington committee in charge of the March of Dimes, will give a brief talk during which he will explain the widespread work being done by the National Foundation and its many chapters in the fight against dreaded infantile paralysis. At the conclusion of his talk, the young men and women present will be invited to make their donations to the fund. Members of the Arlington Auxiliary Police, who sponsor the youth dances, will be on hand as usual.

With only a few more days to go before the drive comes to a close, W. Dale Barker, chairman of the Arlington committee, yesterday appealed to Arlingtonians to deposit their contributions in the boxes, which have been placed at convenient locations, stores, banks, etc., this week-end. Your contribution today is your insurance for tomorrow. Research must continue and treatment must be made available. Arlington has not been spared from the dreaded disease. Several cases are being treated locally as evidenced by the fact that the Middlesex Chapter last year paid out no less than \$1700 for treatment.

Return Census Card Now, Board Appeals

With the taking of the Town's census now completed, the Board of Registrars yesterday appealed to Arlington families who were absent when census takers visited their homes, to return immediately to the Robbins Town Hall, the two cards left at their home. Both cards should be filled out and mailed in the return envelope left for this purpose. One is for the State census and the other for the Arlington listing.

In the event that any have omitted giving the names of all their children, these should also be sent to the Registry. Any questions will be answered by calling ARL. 0164.

Where to Send Check
Contributions of checks, which may be made out to "National Foundation for Infantile Paralysis, Inc." will be accepted at any of Arlington's four banks or by the following:
Dr. Ralph B. Lancaster, treasurer for the committee; William J. Sinclair, vice chairman, 180 Jason st.; Mrs. Llewellyn M. Evans, Arlington Visiting Nurses Association; Phillip Bowers, Board of Public Health; Mrs. John B. Kennedy, 27 (Please turn to page Eight)

Few Contests in Town Election

With next Monday afternoon at 5 the deadline for filing nomination papers for town offices, indications are that few offices will be contested in the annual election next March.

Thus far only one contest is in sight, that for the two-year term on the board of cemetery commissioners with Sylvester A. Keaney, who now holds this office, apparently opposed by Val T. Hanson. Others whose nomination papers are being circulated include: William C. Adams for selectman; Earl A. Ryder for town clerk; James R. Smith for board of public works; Arthur W. Sampson for assessor; Charles K. Bowker for planning board; Everett J. Henderson for the park commission; Carl E. Barstow for the board of health; George M. Dolan for tree warden; J. Wilbert Anderson for board of health and J. Edwin Kimball for the three-year term on the cemetery commission. All are seeking reelection.

Keep grinnin'—you're winnin'! George, who is well on his way to recovery after a crippling attack of infantile paralysis, gets a pep talk from the gang. The visitors, now in perfect health, once were victims of polio themselves. All were aided by the Middlesex County (N.J.) Chapter of The National Foundation for Infantile Paralysis. Your contributions to the March of Dimes, January 14-31, will help thousands of youngsters like these to win their fight against infantile paralysis.

Have You Helped The Fight AGAINST INFANTILE PARALYSIS?

Join The March Of Dimes

Arlington is doing its bit in the nationwide drive. YOUR support is needed in this national fight against polio. No one can predict where it will strike next or whose child will be next. For that reason America must be strongly prepared to meet whatever emergencies may develop. Last summer America was besieged by the worst epidemic of infantile paralysis in twenty-eight years. Most of its victims were children under sixteen years of age. That outbreak found us strongly prepared. Your dimes and your dollars made expert care and treatment available to all victims regardless of age, race, color or creed. This year, The National Foundation for Infantile Paralysis needs your contribution more than ever. Money is needed to reimburse the source that was tapped so heavily by last year's emergency, and to prepare us in the event of another. The future is up to you. The amount you give insures that every child, stricken this year, will receive speedy and competent care.

Help Fill The Coin Boxes at Arlington Schools, Clubs, Stores Or Mail Your Check To Any Local Bank

WE MUST CARRY ON! Written in blood on the ledger of human heartache and sacrifice is the debt which America owes its fighting men and women and we cannot attempt to estimate its magnitude. But one way in which we can pay part of this debt is to protect the children of the fighting men while they are away. Let us not add to the burden of anxiety which the fighting

man carries; let us lighten his load instead — let us assure him that his children will be shielded from infantile paralysis. Let him know that the armor of the National Foundation stands between him and the Crippler. Let us forge our dimes into silver bayonets with which to carry on the fight . . . to the finish! Drop your coins in the Red, White and Blue box today!

Deane W. Moores, executive director, in his report to the board brought out that the membership totals 603, of which 167 are seniors and 436 juniors. Activities during the past year have included basketball, soft ball, bowling, billiards, movies, special parties, boxing, Victory Volunteers, Boys' Clubs of America national competitions, woodworking and construction classes and tournaments. The club has sent boys to camps and has found employment for others.

Shows Need For Beach. He reviewed the work done in altering and re-decorating the clubhouse on Pond Lane since it was turned over to the club a year ago, and the interest in outdoor activities since the club moved into its new home overlooking Spy Pond.

He praised the work of A. Henry Ottoson, Lester Cameron, Lawrence Matyia and Robert McLaughlin, who have assisted in directing the club's activities.

Concluding, he stressed the need for a beach at the club which will

provide safe bathing under proper supervision, and a separate recreation room for older boys. "Many of the veterans," he said, "will come back to us providing we have the facilities awaiting them."

Dinner was served the board before the annual meeting.

He placed tremendous emphasis on the importance of superior equipment and said that the type of electronic equipment manufactured at Raytheon is extremely vital.

TO ELECTRIC UTILITY CUSTOMERS

The War Production Board has requested us to notify you of the issuance of Utilities Order U-9 prohibiting certain uses of electricity. A copy of this Order is printed below.

Title 32 — National Defense
Chapter IX — War Production Board
Part 4500 — Power, Water,
Gas and Central Steam Heat
(Utilities Order U-9)

§ 4500.61 Utilities Order U-9. (a) Purpose of this order. War requirements have created a shortage in the supply of coal and other fuels. The purpose of this order is to save fuels used in the generation of electricity by prohibiting certain unnecessary uses of electricity.

(b) Definitions. For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, political subdivision, governmental agency or corporation or any organized group of persons whether incorporated or not.

(2) "Electric Supplier" means any person who generates, transmits or distributes electricity.

(c) Prohibited Uses. No person shall use electricity for any of the following purposes:

(1) Outdoor advertising and outdoor promotional lighting.

(2) Outdoor display lighting except where necessary for the conduct of the business of outdoor establishments.

(3) Outdoor decorative and outdoor ornamental lighting.

(4) Show window lighting except where necessary for interior illumination.

(5) Marquee lighting in excess of 60 watts for each marquee.

(6) White way street lighting in excess of the amount determined by local public authority to be necessary for public safety.

(7) Outdoor sign lighting except for:

(i) Directional or identification signs required for fire and police protection, traffic control, transportation terminals or hospitals; or directional or identification signs for any similar essential public services the lighting of which is specifically certified to be necessary by local public authority. Certification shall be made in writing to the appropriate electric supplier and need not be in any particular form;

(ii) Directional or identification signs using not more than 60 watts per establishment, for doctors and for hotels, and other public lodging establishments.

(d) Exemptions. (1) Any electric supplier who considers that compliance with this

order by the persons whom it supplies directly and indirectly, will not reduce the consumption of coal or other scarce fuels may apply for exemption for the area it serves to the Office of War Utilities, War Production Board, Washington 25, D. C., Ref.: U-9.

(2) The War Production Board may from time to time issue directions exempting designated areas from this order if it finds that compliance within such areas will not reduce the consumption of coal or other scarce fuels in accordance with the purpose of this order.

(e) Appeals. Any person affected by this order who considers that compliance with this order will work an exceptional or unreasonable hardship on him or who considers that compliance will endanger public health or safety may appeal for relief to the District Office of the War Production Board for the area in which the consumer is located, Ref.: U-9.

(f) Notices. (1) Every electric supplier shall, as soon as practicable, notify by publication or otherwise all persons to whom it supplies electricity for uses prohibited by this order of the terms hereof.

(2) If any electric supplier has knowledge of a violation of this order by a person to whom it supplies electricity, it shall inform the person of the violation. If the violation is continued, the electric supplier shall notify the person in writing of the specific terms of the order which apply and of the penalties prescribed for violation and shall mail a copy of the notice to the District Office of the War Production Board for the area in which the consumer is located, Ref.: U-9.

(g) Violations. If the War Production Board determines that any person is using electricity in violation of this order, it may direct the electric supplier serving such person to disconnect service and prescribe the conditions under which service may be reconnected. In addition, any person who willfully violates any provision of this order or who in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment.

(h) Effective Date. The effective date of paragraph (c) of this order shall be February 1, 1945.

Issued this 15th day of January, 1945.

OUR PUBLIC HEALTH NURSES

Done in a quiet way, without fanfare and little publicity, the work of the Public Health Nurse quite generally goes unnoticed. Comparatively few are aware of the peacetime and wartime contribution to the well-being of the community made by this group of women.

It is fitting therefore that today should be set aside in celebration of National Public Health Nursing Day.

Arlington has eight Public Health Nurses including four visiting nurses who do bed-side nursing and teach people how to keep well through clinics and home visits.

Last year the visiting nurses made more than 7,000 home visits and Well Baby Clinics had 1,282 in attendance.

One Board of Health nurse has charge of the dental clinic, toxine anti-toxine clinic and follows up all tuberculosis and contagious cases.

Three school nurses look after the health of all school children.

Public health nursing makes it possible for many people to be taken care of at home and so relieve the pressure of hospitals in wartime.

Public health nurses teach families how to take care of their own sick and save nursing and medical time for more critical cases.

The war has served to emphasize the work of our Public Health Nurses.

BOOKS FOR THE MERCHANT MARINE

Arlingtonians are being provided an opportunity to bring cheer to the United States Merchant Marine by contributing books for the men who keep war supplies moving across the seas. This project is being sponsored on a nationwide basis by the Order of Elks. James R. Nicholson, chairman of the Elks War Commission, New York, says: "Once again Elks are called upon to render a much needed patriotic service. Whereas the Government appropriates large sums each year to buy books for the Army and Navy, it makes no such appropriation for the Merchant Marine — the men who keep the sea lanes loaded with supplies for the Army and Navy. Therefore we are asked to assist the American Merchant Marine Library Association in its efforts to supply this reading material, which is often the only means of recreation open to these seamen for long periods of time."

The goal of the drive is "A book from every member of the Elks — for the Men Who Go Down To The Sea In Ships." Citizens can help the cause by leaving their books at the collection station in the Capitol Theatre lobby.

DIME POWER

It was a small stone that slew the giant, Goliath! Like that small stone, a little dime, dropped into a March of Dimes container, becomes a powerful weapon of destruction against another giant enemy — infantile paralysis.

The combined power of dimes, contributed each year by the American people to the March of Dimes, in celebration of the President's Birthday, makes it possible for every infantile paralysis victim, regardless of age, race, creed or color, to receive the best medical care available. All over the country in areas invaded by infantile paralysis last summer this money was on hand to provide early medical care which may mean the difference between a life of crippling or normal recovery.

These modest dimes are now bearing interest far beyond financial calculation. Remember this and contribute to the 1945 March of Dimes.

The NEWS OBSERVES

JOIN THE MARCH OF DIMES FIGHT INFANTILE PARALYSIS

The necessary machinery for processing applications by veterans of World War II for business loans under the Servicemen's Readjustment Act of 1944 (G. I. Bill of Rights) has been set up in the Boston Loan Agency of the Reconstruction Finance Corporation.

The veteran should first contact his local banker. If unable to obtain a loan from his banker, he should then apply to his nearest RFC Loan Agency for a loan. The address of the agency for this region is 10 Post Office Square, Boston.

"The requirements of the law are that the veteran must be found qualified by training or experience to engage in the type of business for which he seeks a loan, the property sought to be acquired is reasonable in price and suited to its intended purpose, and that the venture is likely to succeed," John J. Hagerty, manager of the Boston agency, states.

By this time, everybody in Greater Boston knows that Ernest Lawrence Thayer was author of that famous poem, "Casey at the Bat." Unknown to many, however, is the fact that the poem was inspired by the late Tim Keefe, New York Giants' pitcher and uncle of Joseph Brodine of Arlington.

Keefe fanned Daniel M. Casey in the last inning of a crucial game on Aug. 21, 1887. Wrote author Thayer, "Ten thousand eyes were on him as he rubbed his hands with dirt; five thousand tongues applauded when he rubbed them in his shirt. Then while the writhing pitcher ground the ball into his hip . . ."

But, the mighty Casey struck out, and Thayer concluded: "Oh, somewhere in this favored land the sun is shining bright; The band is playing somewhere and somewhere hearts are light; And somewhere men are laughing and somewhere children shout; But there is no joy in Mudville — mighty Casey has struck out!"

Mr. Brodine was likewise an outstanding athlete during his years at St. John's Preparatory School. He is now associated with the Municipal Club in Boston.

Do you want to own a lovely new home? It can be marvelous but not miraculous. The Washington Post, which conducted a survey on possible new developments in postwar home construction, found that during the war no miracles have occurred that will revolutionize building methods or home designs.

In a full page statement designed to reassure home owners and prospective home buyers, and to stimulate thoughtful planning, the Post declared: "If you want the heart-warming comfort and satisfaction of a charming, liveable, cozy home, don't hang back and wait for a house from Mars. Plan for a sensible, modern, practical home — see a good builder and relax. You may rest assured that the 'imaginary house' you've seen pictured by artists who are not architects, will not be available soon — nor for modest money."

Camp Menotomy Declares Dividend

The Arlington Girl Scout Council, operators of the highly successful Girl Scout Camp at Meredith, N. H., on the shores of Lake Winnepesaukee, has paid off another one thousand dollars on its bond issue.

The Council in 1939, when it bought the hundred acre tract upon which the Camp is located, issued ten thousand dollars worth of four percent mortgage bonds backed by a mortgage on the property held by the Menotomy Trust Company as trustee for the bond holders. Interest has been paid on the bonds annually since their issue and with this year's payment on the principal the Council has liquidated \$3,400 worth of bonds.

Payment of interest and principal are made from the successful financial operation of the venture, assisted by the Girl Scout Cookie Sales. The Camp is not supported in any way by the Community Chest, but is a self-sustaining independent activity.

In addition to the bond payments this year the Camp has purchased an additional tract of land, bordering 600 feet on the lake to the north, and has erected a new well equipped infirmary.

The Camp Committee, headed by Mrs. Harold Yeames, plans to install this spring new waterfront facilities for the swimmers.

The Camp was filled to capacity for the entire camping period last season. The Committee suggests that Arlington Girl Scouts make up their minds at once if they desire to use Camp Menotomy this coming season.

Servicemen Brave Storm to Attend Girls' Club Dance

A surprisingly large number of service men braved the New England snowstorm to attend the last dance sponsored by the Arlington Girls' Service Club at Legion Hall. There were about 60 men present, including a number of petty officers from the Royal Canadian Navy Volunteer Reserves, two of whom were the winners in both prize dances.

The senior hostesses were: Mrs. Agnes Ellard, Mrs. J. Harry Law, Mrs. Mary Flores and Mrs. Helen M. McLean.

All service men are again invited to accept the hospitality of the Arlington Girls' Service Club on Feb. 6 at Legion Hall. Boys from Arlington who are home on leave are particularly welcome.

The monthly club meeting will be held next Tuesday evening at 7:45 at the Old Mill.

Study Club Speaker Urges Practical Civic Planning in Future

The Arlington Heights Study Club observed Art Day on Tuesday with a number of special guests invited, among whom were Mrs. Reynolds, art chairman of the State Federation, and Mrs. Stanley Kingman, president of the Arlington Women's Club.

The guest speaker was James Kenney of the art department of the Arlington High School, who made intensely interesting his subject of art in the civic planning of the post-war world. While admiring the restoration of Williamsburg as a symbol of gracious eighteenth century living, Mr. Kenney pleaded for architecture in the cities of the future which fits the life and functions of the time — in other words, "to respect the past, but look forward to the refreshing future."

Benner Unit Host to Special Guests

Lt. Stanley G. Benner unit of the Marine Corps League auxiliary at its last meeting had as special guests, State Department Commandant George Lorman, State Department president Mary Lorman, State secretary Ruth Spencer of Lowell; State treasurer and assistant national chaplain, Raymond MacGillivray of Arlington; acting Commandant of Lt. Stanley G. Benner detachment George MacGillivray of Arlington; Herman Benner, honorary member of Arlington; and Pfc. William Mahoney, son of a unit member, who was home on furlough from the south Pacific where he served in four major battles.

They were introduced by Ella I. Potter, senior vice president. The State officers and Marines were loud in their praise of the work being done by the Arlington unit. During a social hour, refreshments were served by Sue Femia and her committee.

Arlington G. I. Drops Tools to Help Rout Nazis From Hilltop

Despite no orders, Pvt. Amos J. Bertacchini of Amherst st. grabbed his rifle and followed his company into the line to buck the Nazi December offensive.

His company laid down their tools to wrest an important hill position from the Wehrmacht under Capt. Rowly Andrew of Los Angeles, Calif.

"We first took the hill and its protection machine gun emplacements by surprise one afternoon," said Capt. Andrew. "I led 12 men and a sergeant across 2,000 snow-covered yards, but we were driven out the next morning by Nazis camouflaged in white. I led the company back up the hill that afternoon, and we were about a third of the way up when I spotted Pvt. Bertacchini. I asked him what he was doing there, since he hadn't been ordered into the line. He just grinned and said he didn't want to miss a fight, and asked me if I objected. I waved him on with the others and we went over the top like a football team."

The company, whose job was Engineer work with the services of supply, went into its first battle armed with Springfield rifles, little ammunition, a few hand grenades and no bayonets at all.

Betty Bayburn's Column

IT'S THE PRE-LENTEN PARTY SEASON: Ash Wednesday comes Valentines' Day and New England is surely showing its hospitality to visiting service peoples by the parties and events scheduled this month.

When you dance, are you smooth and smart or do your clothes reek of stale perspiration? Correct cleaning is the answer to this problem.

NEAL O'HARA wonders why Chief Bullock doesn't mimic with "This is Archie Calling". He probably doesn't realize our police chief is a pretty swell guy who makes those Saturday night affairs at the Town Hall his number one hobby. Our Archie has a real sense of humor and he's a dapper gent, too.

"NOT ALL THAT GLITTERS IS GOLDEN" applies to some of the snappy metal cloth gowns now being worn.

Metallic cloth is beautiful and expensive, but it is definitely not serviceable. The very fine strands of copper, brass or silver that give luster to these and lame fabrics are coated with a very thin protective lacquer or other transparent substance before they are woven into fabrics. Once this protective coating is disturbed by friction, perspiration, fumes from the atmosphere, or alcohol spots, large discolored areas appear and often a complete change of color results. It is the same when brass, copper and silver tarnish in the home. Sometimes the cleaner can temporarily remove this discoloration, but he is unable to make it permanent because he cannot restore the protective lacquer to the tiny individual threads. So discolorations may reappear before the garment can be delivered to the customer.

It's beautiful, but it's not serviceable."

CEILING PRICE POSTERS showing charges for a few popular items are now compulsory in every dry cleaning store. Our ceiling prices have not been advanced since 1942, when we filed a complete price schedule with the ration board which is also posted in both Drive In Stations.

Whether it's dry cleaning, groceries, or clothing it's patriotic to check ceiling prices and if you suspect something wrong, report the details to the Ration Board for their investigation.

Price Ceilings, as well as wage ceilings, are something like a corset. It's a foundation that keeps the whole nation from inflating to a perfectly horrible shape.

Yours for cleaner living—

Betty

Red Cross Drive
(Continued from page one)

The united campaign, he said, will eliminate duplication of effort in soliciting contributions in the Metropolitan area, a condition always troublesome and tending to retard progress in previous appeals. The partnership of chapters, he added, will provide greater coordination and cooperation, with a much higher degree of effectiveness. The three great virtues of the arrangement, he explained, will be economy, complete coverage and a united front.

Frost Again Chairman

Edmund L. Frost, who conducted the successful Red Cross War Fund Drive in Arlington last year has again accepted the responsibility for 1945. Mr. Frost is a director of the Arlington Social Service League, the Arlington Boy's Club, and the Philharmonic Society, a recently-elected trustee of the Robbins Memorial Library, and a member of the board of directors of the Arlington Branch, Metropolitan Chapter of the American Red Cross. He is president of the Frost Insecticide Company and the Arlington Storage Warehouse, and a director of the Menotomy Trust Co.

A meeting of the leaders for the drive was held in Boston last Saturday. Mr. Frost was accompanied by his vice-chairman, Henry C. Guernsey, and Mrs. Clifford R. Hall, Mrs. Nils Olsen, Edward W. Higgins, Paul A. Smith, and Arthur W. Sampson, all of whom will be associated with Mr. Frost in the drive.

Pack 20

Pack 20 held its meeting at the Brackett School last Friday evening. Cubmaster L. M. Donahoe introduced the new assistant Cubmaster, Mr. Sidney Bowdidge, who helped distribute certificates of recognition to all boys who participated in paper drives. All regretted that Mrs. Donahoe, because of illness, must relinquish her duties as den mother. Cubs and parents also gave a rising vote of thanks to Mrs. Leslie Nelson, who is also resigning as a den mother.

Ronald Dutton, the "Hilltop Houdini," held the boys spellbound with his feats of magic and sleight-of-hand. Two boys selected from each den competed in a true-or-false contest, with Mr. Bowdidge acting as quizmaster. The winner was David Bresnahan of Den 2.

Merit badges were awarded to the following cubs:

Wolf Silver, Eugene Bullock, Bear, Richard Healy, Hartwell Flemming, Richard Tobison, Richard Hill.

Moore Is Candidate for Representative

To the Editor:

Through your paper, I would like to announce my candidacy for the office of Representative from the 28th Middlesex District.

This decision has been reached after many of the citizens of Arlington urged me to run, pointing out that my years of training on the Finance Committee, of which one year was served as Vice Chairman, my association with many civic undertakings, such as Chairman of the Arlington Community

Fund Drive and a member of the Youth Guidance Committee, will assist in my carrying a deeper insight into office. This experience will enable me to vote honestly, sincerely and with knowledge for the best interest of Arlington.

On Leyte, good water is a luxury, Knowles writes. On the other hand, the boys have the services of a native houseboy to do odd jobs and a native woman to take care of their laundry. On Christmas, the Arlington Seabee enjoyed turkey in all the fixings he writes, but nevertheless he added, "I'm homesick as the devil." Knowles is married and his wife makes her home in Cambridge.

SCHOOLS AND BUSINESS Babson Appeals for Better School Committees

By ROGER W. BABSON
BABSON PARK, Fla., Jan. 25— "Army Rejects Millions", "2,000,000 Returned for Physical or Mental Disability". These are headlines which we see in newspapers. Let us hope the figures are exaggerated; but if not, the situation is bad for our brave men, our overburdened taxpayers and for postwar business.

Jobs Depend Upon Brains
I repeat that unemployment can only for a short time be relieved by government relief, pensions, bonuses, and even by public works. To solve the unemployment problem we must have more employers and must give greater freedom to all employers. The only alternative is Communism. More brains must come before more jobs.

We want a higher standard of living; but we cannot raise the standard of living without first raising the character, health and intelligence of the people. We cannot have long postwar prosperity if our business leaders and future Congressmen are to be army physical rejects and returning soldiers broken down in health or mental powers.

Our business boosters talk about a postwar national income of \$120 billions compared with a prewar income of \$80 billions. How can men, who are unfit, or too old, or too mentally upset to be in the army, be expected to make a success entering business?

Another thought: If we were not at war and if all men were in normal health who would be so optimistic as to suggest such an increase in national income during the next few years? Then, how can it be obtained with millions of our best men in cemeteries or hospitals or on relief at home? This is especially true if our killed, or injured, or shell shocked are our best and bravest men.

Better Committees Needed
Who are responsible for the weak moral, physical and mental condition of the rising generation? Who are training those who must provide re-employment for 30,000,000 veterans and war workers and must pay taxes for billions of pensions and a debt of \$300 billions? The school committees of your city and mine are responsible for what is to happen. Too many of them

are putting cheap politics and their own selfishness before the good of their communities and returning soldiers.

Some editors criticize me for writing about Education instead of Business. But, let me reply as follows: — Good business must be preceded by good education. One is the hatchet and the other the handle; one is the lock and the other is the key. They are inseparable. Bad business and unemployment always result from a temporary weakness in our Educational System. This is one reason why business depressions come about once every 20 years.

High School Discipline
Therefore, in behalf of better postwar business, less postwar unemployment and safer investment markets, I appeal to readers to check up on their school committees during 1945. Throw out any politicians who are thinking first of themselves. Elect trained educators who know something about the world's most delicate and intricate machine—the human brain.

—Instead of plumbers, carpenters and second-grade lawyers. Most school superintendents and teachers know what High Schools need, namely, more brain-developing courses, stricter discipline and less parties; football, etc. But, the young people dislike courses of study, such as mathematics which force them to THINK. These High School kids prefer easy courses like typewriting which will merely help them to a temporary job. The politicians try to please the students "for fear of a student strike"; as a school committee man said to me the other day!

Beware Of Inflation
A bad school committee situation exists in most of the communities where this weekly column of mine is read. The composition of your school committee is far more important than "who is mayor," or "what's the tax rate," or "how city funds are to be spent". Your school committee of 1945 will determine whether you are to have business prosperity or depression in 1955. Postwar inflation can postpone unemployment for a few years; but only better character, sounder health and more brains can lick "old man depression".

Universalists Hold Annual Meeting

The Universalist Church observed Annual Parish Meeting Day last Sunday.

During the morning service, a note of the Massachusetts convention was burned by David L. Peirce, chairman of the board of trustees. Dr. Robert Cummins, general superintendent of the Universalist Churches of America, preached an inspiring sermon.

Special music was provided by Margaret Sandberger, organist; Mrs. Laura Kelley, violinist; and Miss Marjorie Samsell, soprano. Dinner was served in the vestry after which the annual business meeting was held with Mr. Peirce presiding. Reports showing the church in sound condition were read. The following were elected to office for the year 1945: David Peirce, moderator; Norman Norton, clerk; William L. Norton, treasurer; Robert Hawkins, collector; Howard H. Dawes, Robert Spence, William Thomson, Helen K. Wyman and Elizabeth Yerrington, trustees; James F. Younie, Ernest W. Davis, John O. Matthews and Warren J. Gould, deacons.

Clem Norton Says

Governor Maurice J. Tobin handles the press better than any Democrat who has ever held public office in this part of the country in our time. If you will take a ruler and measure the bad things that have been said about him in the newspapers, you will find that he leads all others in his press relationships, by a wide margin. This is an art.

Senator David I. Walsh came all the way down from Clifton on one of the most stormy days of winter on a recent Sunday in order to address a group of Americans of Polish extraction who were meeting at Faneuil Hall and protesting against the cutting up of Poland. The Senator could easily have remained at home on the grounds that the roads were impassable for an automobile, but he got right out into that cold storm and for two solid hours his auto poked its way slowly up hill and down dale in making its way from Clinton to Boston. This one incident is enough to show the point I wish to make and that is that the Senator is a prodigious worker and he always has in mind the fact that he comes up for re-election next year.

Those individuals who speak of the Senator voluntarily retiring because of his age, 72, are not well informed, for he is the type that will "die in harness". There is something about the United States Senate that really makes it what one student of government has rightfully termed it, namely, "the greatest club in the world."

The late Senator George W. Norris of Nebraska, when defeated for re-election, although near 80 years of age, actually cried. When the late Senator William E. Borah of Idaho was asked if he would retire, he invariably answered, "Absolutely not!", and Borah died "in harness". Senator Hiram Johnson of California has been very sick for years, but he still hangs on tenaciously to his Senate seat.

Contemporary political history indisputably shows that very few men have voluntarily retired from the United States Senate and I look for Senator Walsh to remain in the Senate as long as he lives.
